Program Details

The Town of Needham has elected to pair Rooftop Solar with Air Source Heat Pumps and Electric Vehicles. Solarize Mass Plus Needham participants will have the opportunity to learn about and purchase any or all technologies at the discounted price and take advantage of federal and state tax incentives for clean energy technology. This program runs through the spring of 2020. Home and business owners will have until April 30, 2020 to sign contracts in order to lock in the savings the program offers.

Solarize Mass Plus Needham Program

Rooftop Solar

Our Partner Boston Solar

Boston Solar is the #1 residential solar company based in Massachusetts, with more than 4,000 installations in 8 years. We are proud to power Massachusetts. We provide superior products, exceptional customer service, and the highest quality workmanship.

Boston Solar is dedicated to helping customers save money while improving the environment and supporting our local community. Every member of our team is focused on delivering the best experience for every customer. Are you ready to join your Needham neighbors as they take part in the national drive toward energy independence?

*The Solarize Needham pricing is for Needham residents ONLY during the Solarize Mass Plus Needham program that runs from September 26, 2019 - April 30, 2020

Electric Vehicles

Our Partner Green Energy Consumers Alliance

We harness the collective power and interests of people and providers to make green energy options not just the right decision for our planet, but the smart choice for our lives. One such way to achieve our goal is our Drive Green program.

Drive Green's mission is to protect our climate and environment by getting electric vehicles on the road in place of gas-powered cars. Through pre-negotiated discounts to purchase or lease, educational resources, advocacy and test-drive opportunities, Drive Green's one-of-a-kind platform makes going electric the right choice for our planet and the smart choice for your life.

Air Source Heat Pumps

Our Partner N.E.T.R. Inc.

N.E.T.R. Inc. is New England's largest Air Source Heat Pump installer with hundreds of installations in the region. We have a dedicated residential installation staff that only installs ductless and ducted Air Source Heat Pump solutions. This allows our specialists to focus 100% on a single solution and be true experts in all Air Source Heat Pump installations.

Ductless is a quiet, efficient heating and air conditioning solution for your home that will reduce your energy costs and in some cases, pay for itself in energy savings. Aside from the energy you'll save with a more efficient system, you could also be eligible for state and local rebates.

*The Solarize Needham pricing is for Needham residents ONLY during the Solarize Mass Plus Needham program that runs from September 26, 2019 - April 30, 2020
